

PT GROUP INTERNATIONAL

IRSHAD PT

CO-FOUNDER & CHAIRMAN

Mr. Irshad PT is a highly successful Indian businessman and Co-founder of the PT Group of Companies. Born in Mankada, Kerala, he has made a name for himself as a visionary leader in the business world. He runs the business with his four brothers and co-founders, Mr. Shareef, Mr. Majeed, Mr. Anvar, and Mr. Salam. He has built a successful business empire that operates across multiple regions in Saudi Arabia, United Arab Emirates, and India.

With his brothers, Mr. Irshad PT oversees a diverse portfolio of businesses, including Al Ghamdi Scrap Trading Saudi Arabia, Hira Gold and Diamonds Saudi Arabia And India, Prime Int'l Saudi Arabia, Al-Saudia Metals Sharjah, Prime Time Metals Dubai, Lakeshore Medical Centre Abu Dhabi, Live-hi Builders Kerala, Arantis Pharmaceutical Company Bangalore and Live-hi Recycling LLP Bangalore. He serves as the Managing Director in each of these businesses, driving the overall strategy, leading his team, and building relationships with key stakeholders.

The company deals with a wide range of metal scrap materials, including copper, brass, aluminum, stainless steel, and lead. They purchase scrap materials from a variety of sources, including industrial facilities, construction sites, and other businesses that generate scrap materials. The scrap materials are then processed and sold to worldwide customers for recycling purposes.

Since its inception in 1990s, the PT Group of Companies has experienced steady growth, achieving a current turnover of 500 million Saudi Riyal. This success is a testament to Mr. Irshad Pt's exceptional business acumen, leadership skills, and commitment to delivering high-quality products and services. He is widely admired for his dedication to ethical business practices and his unwavering commitment to customer satisfaction.

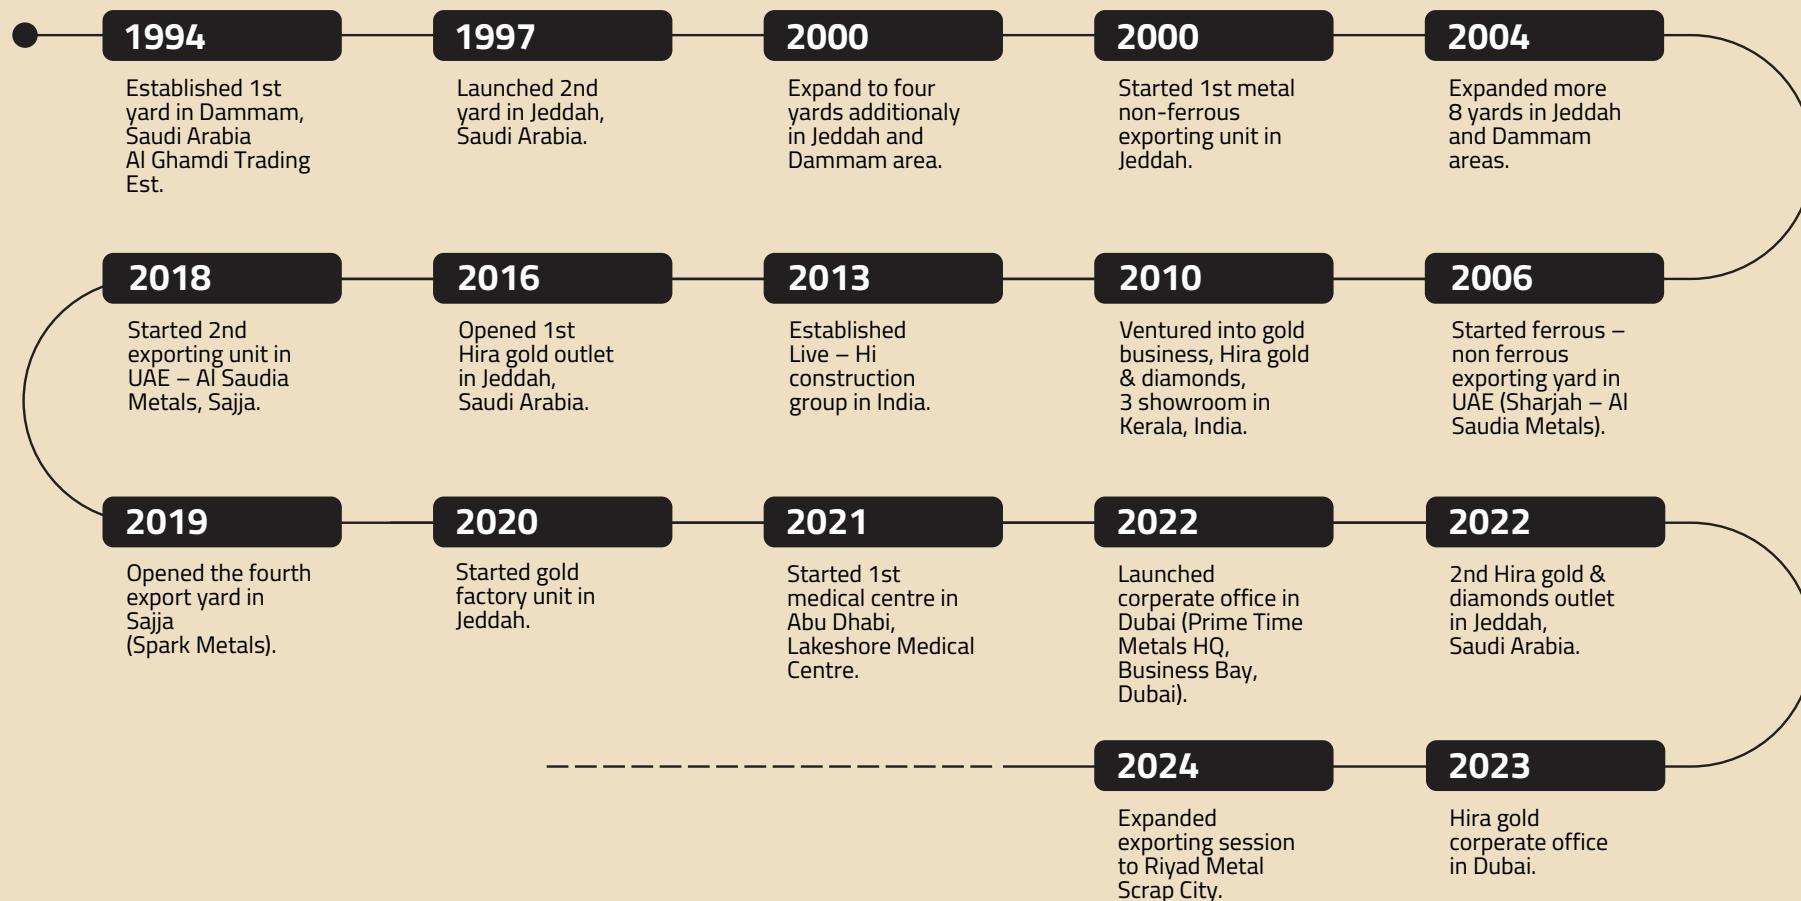

In addition to his business ventures, Mr. Irshad Pt is also deeply committed to giving back to the community. He supports various charitable causes, including education, healthcare, and social welfare, and his philanthropic efforts have made a significant impact on the lives of many people in the communities where his businesses operate.

OUR JOURNEY

Our journey with over two decades of expertise in the scrap metal industry, Prime Time Metals, a subsidiary of PT Group, has grown to become one of the most respected names in the Middle East. Our journey, marked by continuous expansion and innovation, reflects our commitment to quality, sustainability, and growth.

Below are some key milestones in our history:

ACCOMPLISHMENTS

ABOUT COMPANY

In the early 1990s, PT Group embarked on an entrepreneurial journey by establishing a small scrap yard in Saudi Arabia known as Al Ghambi Trading Establishment. With a constant focus on growth and a firm belief in the power of innovation. Today, the group stands as one of the leading scrap metal exporters in the Middle East under the name Prime Time Metals.

Currently in scrap section we have more than 30+ retail shops in various parts of the Middle East and 5 exporting yards in Jeddah, Dammam and Riyadh from Saudi Arabia. Sharjah and Sajjah in UAE. Also, in gold section there are 6 gold retail shops and 1 factory under the name of Hira Golds & Diamonds in Saudi Arabia and India. Later, started a construction company in India called Live-Hi Constructions and a medical clinic in Abu Dhabi called Lakeshore Medical Center as part of expanding the business to other areas. Today we have more than 500 people working with us across the Middle East and India.

⌚ Mission

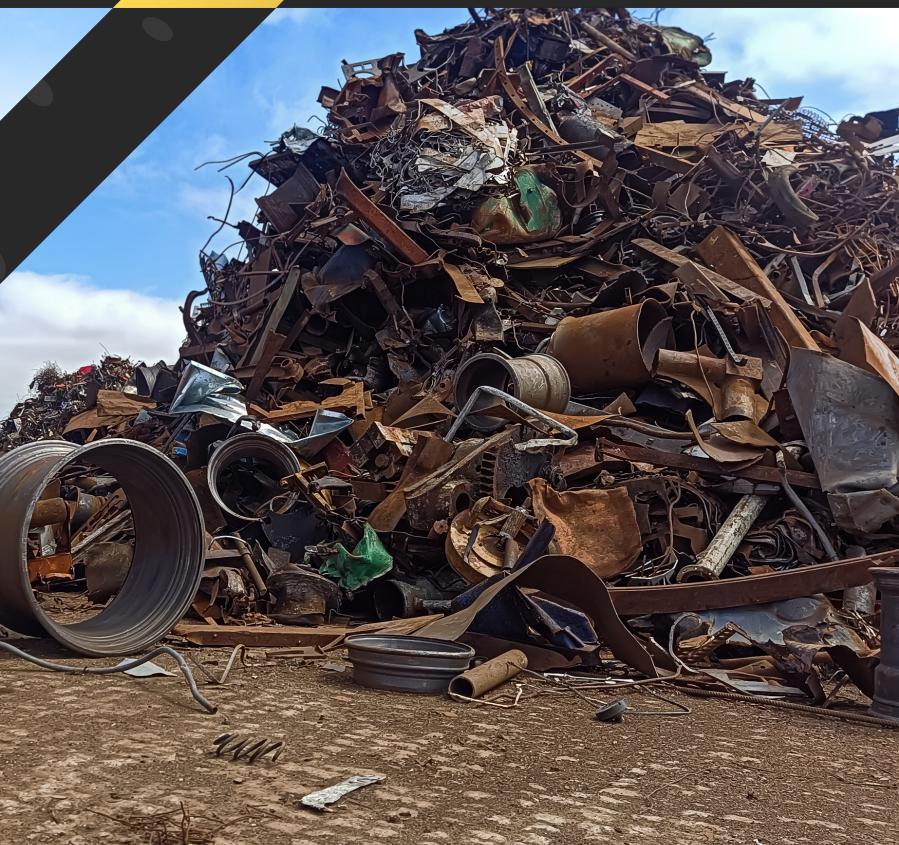

At Prime Time Metals, our mission is to lead the transformation of the scrap metal industry in the Middle East by providing sustainable, high-quality recycling solutions. We are committed to enhancing the environment through responsible recycling practices, delivering reliable services to our partners, and fostering a culture of innovation and integrity across our operations.

Vision

Our vision is to be the premier global leader in the scrap metal industry, setting the standard for excellence in recycling and environmental sustainability. We aim to expand our reach, continuously improve our operations, and contribute to a cleaner, greener future for generations to come.

Core Values

Integrity

We conduct our business with the highest ethical standards, fostering trust and transparency in every transaction.

Quality

Our commitment to quality ensures that our clients receive only the best materials and services.

Sustainability

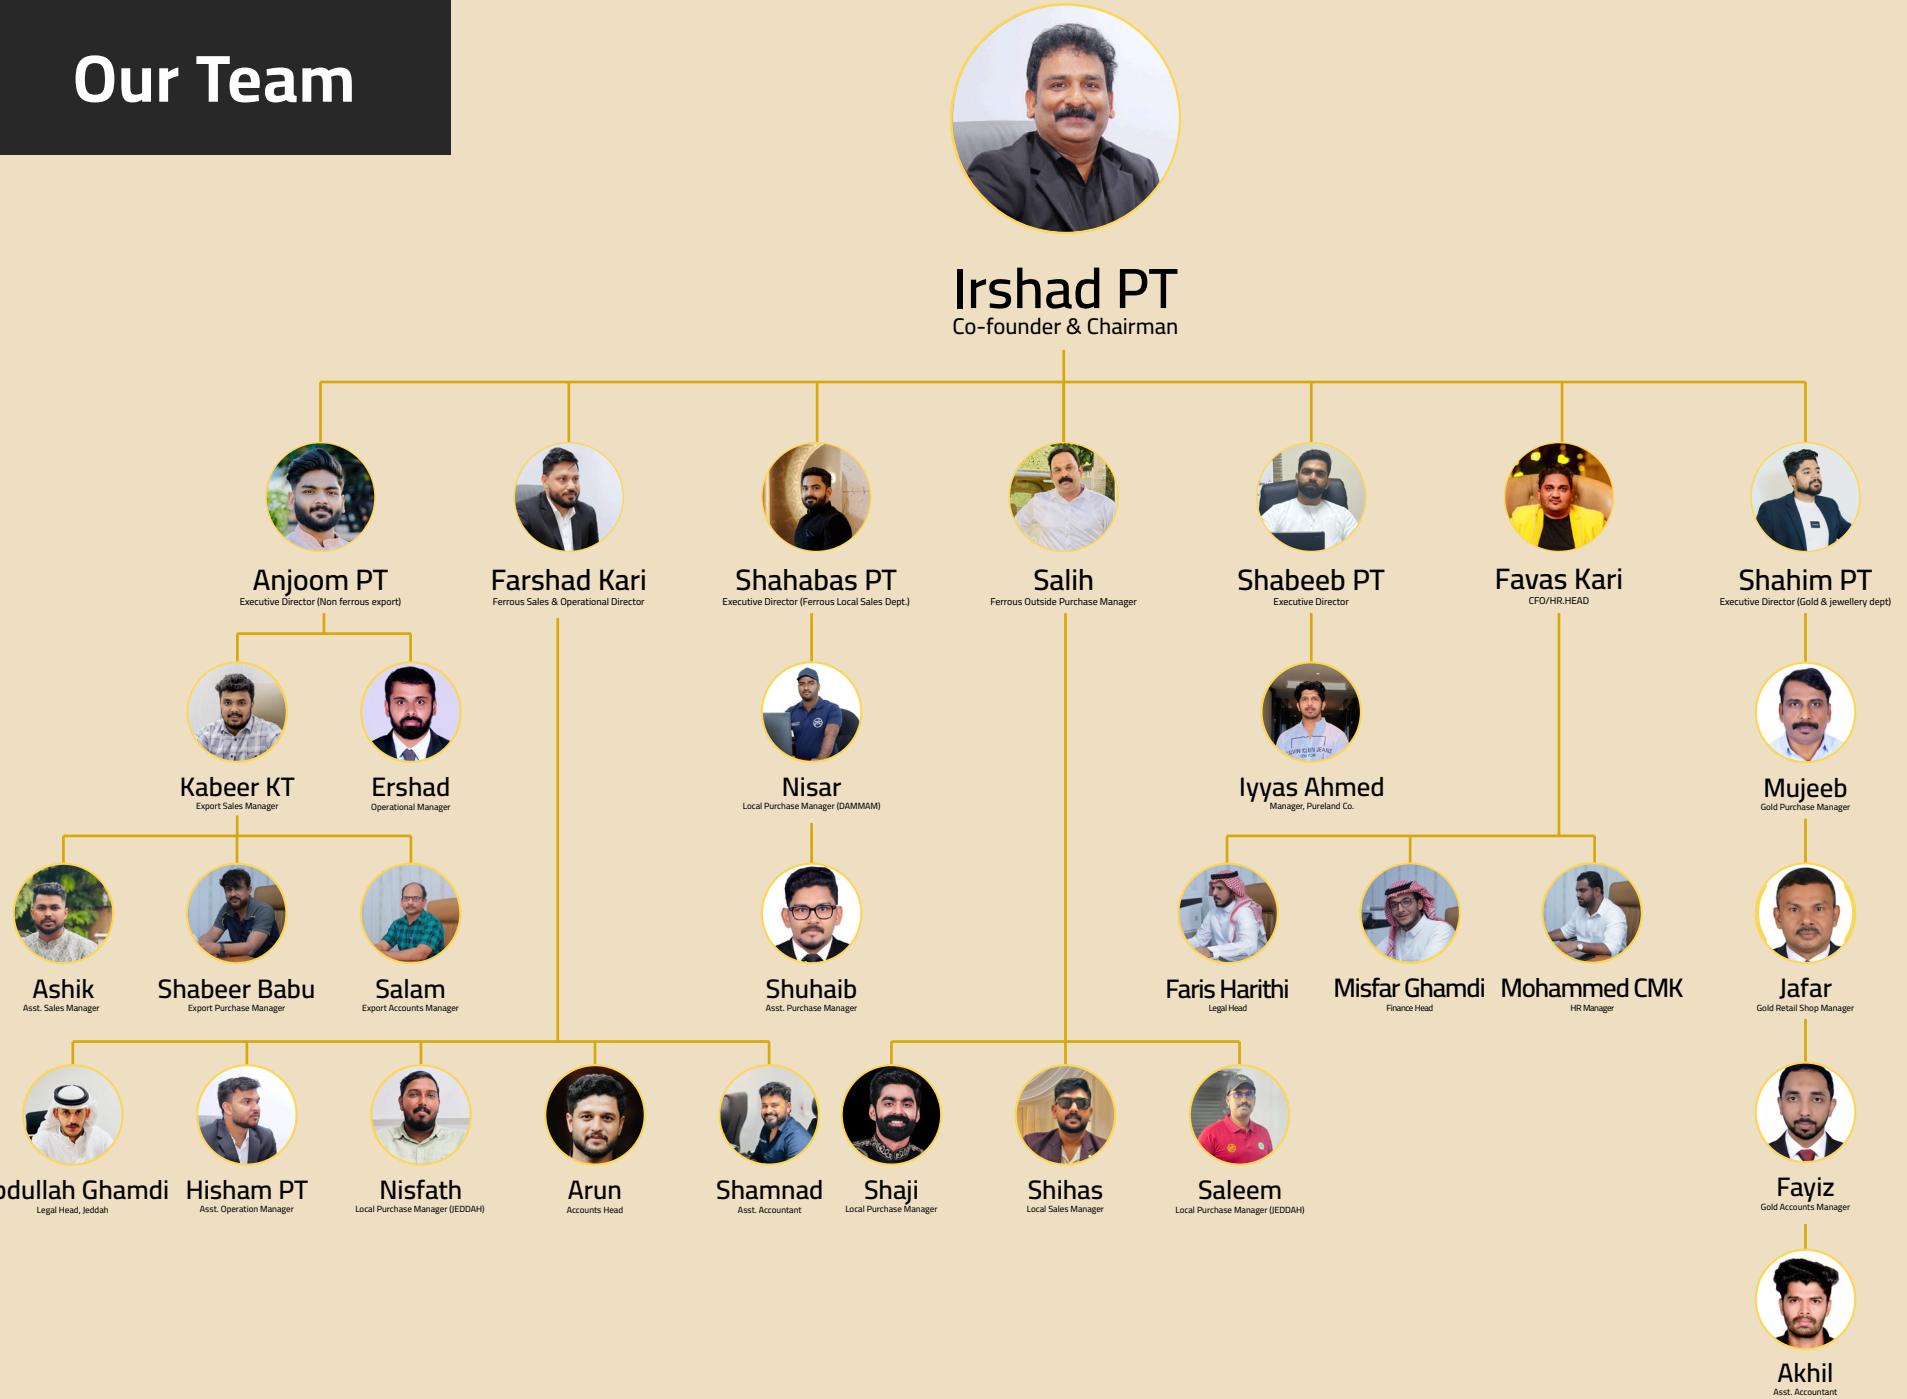

We prioritize environmentally responsible practices, aiming to minimize our ecological footprint and promote recycling.

Customer Focus

We are dedicated to understanding our clients' needs and providing tailored solutions that exceed their expectations.

Our Team

Standard Operating Procedure (SOP)

Purpose

The purpose of this SOP is to outline the standard processes and procedures that ensure the efficient, safe, and environmentally sustainable operations of Prime Time Metals' scrap recycling and related services.

Scope

This SOP applies to all employees, stakeholders, and contractors involved in Prime Time Metals' activities, including scrap recycling, processing, transportation, and trading across our 16 scrap yards in Saudi Arabia and UAE.

Responsibilities

Management Team: Ensures the implementation and compliance with this SOP across all facilities.

Operations Staff: Follows the established protocols in scrap handling, sorting, processing, and transportation.

Environmental Compliance Team: Ensures that all recycling activities adhere to local and international environmental regulations.

Quality Control Team: Monitors and maintains high-quality standards in all services provided.

Health & Safety Team: Ensures the safety of all employees and contractors through regular training and adherence to safety protocols.

Procedures

1- Scrap Material Handling

Upon arrival at the scrap yard, materials are weighed and logged into the system.

Materials are inspected for quality and environmental compliance.

Sorting of scrap materials is carried out based on type (ferrous, non-ferrous, etc.) using advanced processing equipment.

2- Scrap Processing

Process the scrap materials using cutting, shredding, or baling machines.

Ensure all processing activities adhere to quality and environmental standards.

Conduct regular maintenance of processing equipment to minimize downtime

3- Scrap Transportation

Coordinate with logistics teams to ensure safe and timely transportation of processed scrap to clients.

Maintain accurate records of shipments and deliveries.

Adhere to transportation laws and safety guidelines for hazardous materials, where applicable.

4- Environmental Sustainability

Implement recycling methods that minimize environmental impact.

Track and report emissions, waste, and water use to ensure compliance with regulatory standards.

Continuously explore and adopt new technologies that further enhance sustainable practices.

Health, Safety, and Compliance

All personnel must undergo mandatory health and safety training specific to their roles.

Personal Protective Equipment (PPE) must be worn at all times in designated areas.

Regular audits and inspections will be carried out to ensure compliance with safety protocols.

Report any safety incidents or near-misses to the Health & Safety team immediately

Record-Keeping and Reporting

All records of scrap intake, processing, sales, and transportation must be maintained in a secure system for a minimum of five years.

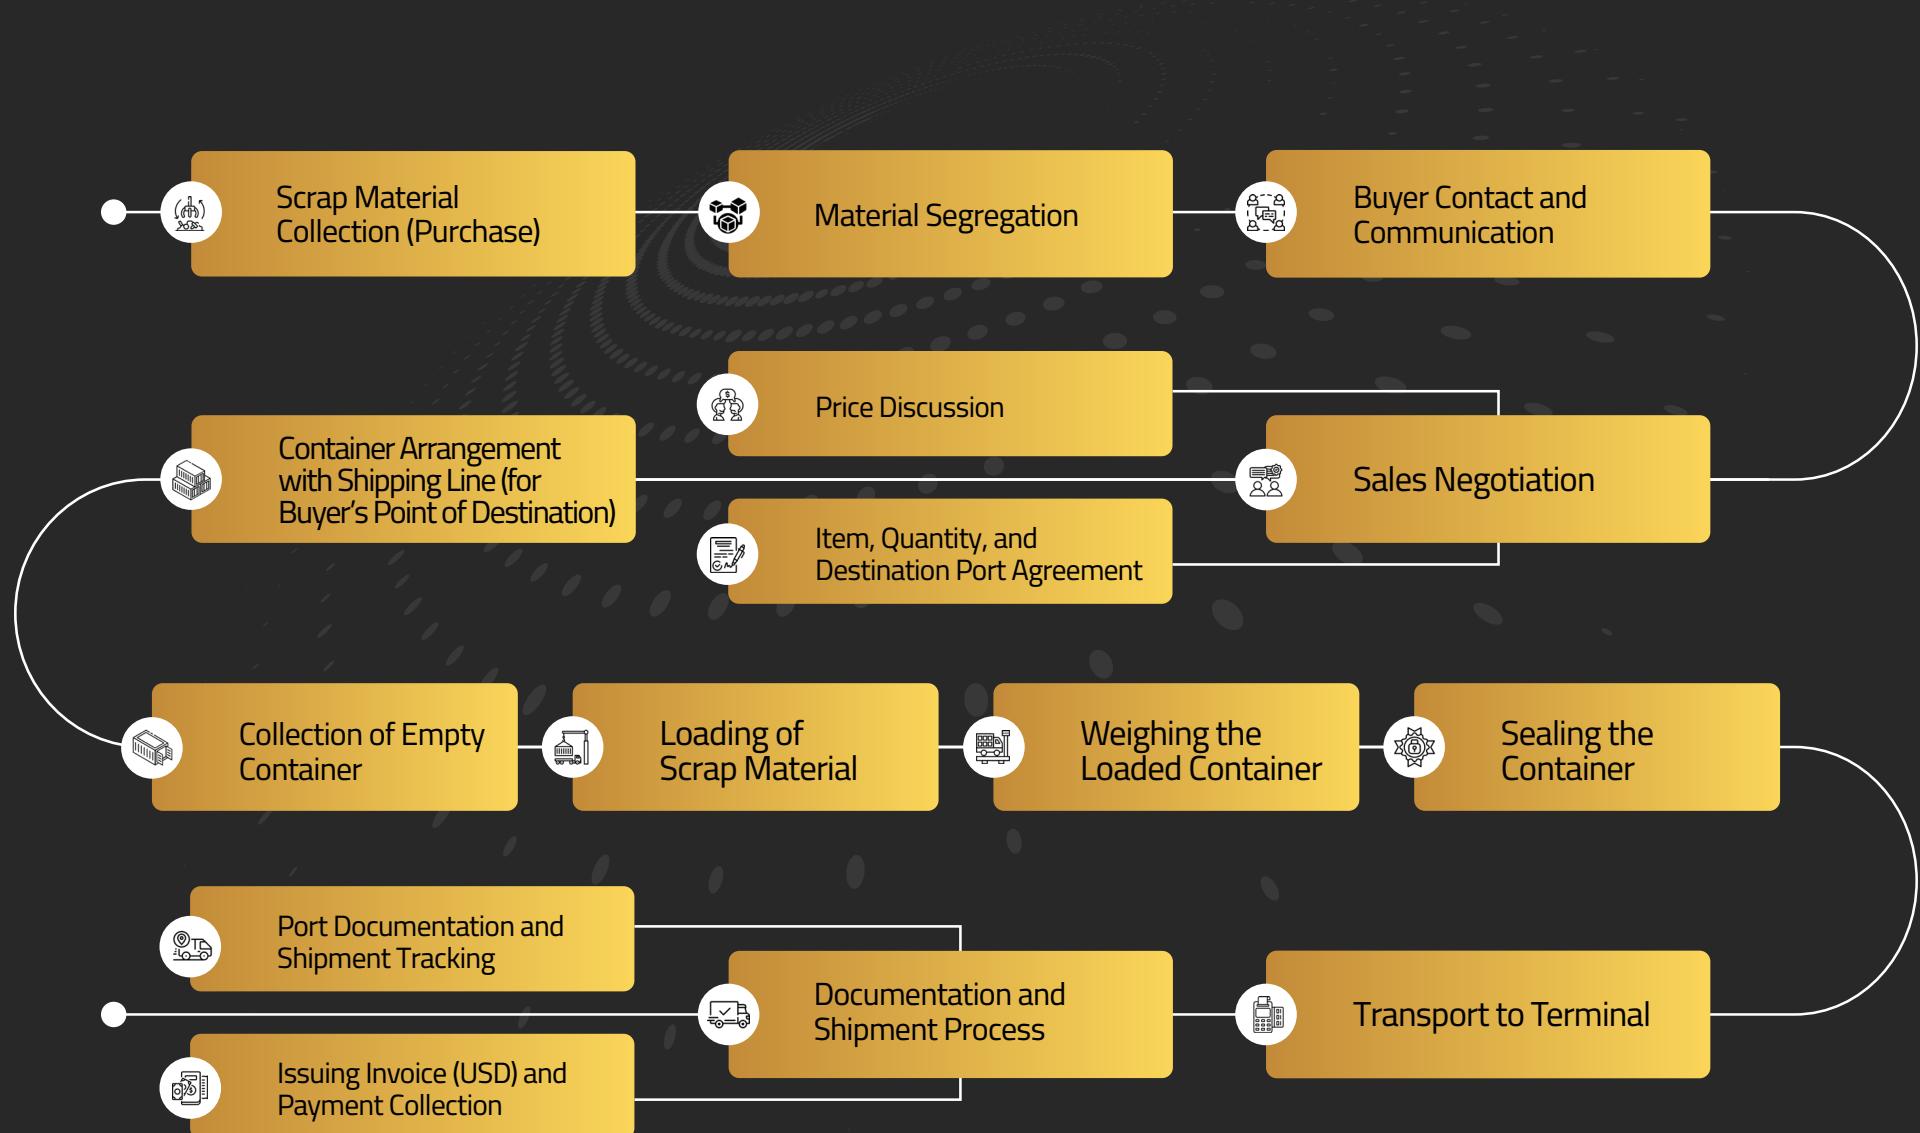

Regular reports on operations, safety incidents, and environmental impact should be submitted to the management team.

Review and Updates

This SOP will be reviewed annually to ensure it remains relevant and effective in addressing the needs of Prime Time Metals.

Updates to the SOP will be communicated to all staff, and appropriate training will be provided.

Our Exportation Process

1. Scrap Material Collection (Purchase)

Acquisition of scrap materials from various sources through purchasing.

2. Material Segregation

Sorting and separating scrap materials based on type and quality for processing.

3. Buyer Contact and Communication:

Engaging with potential buyers to discuss requirements and confirm interest.

4. Sales Negotiation

A) Price Discussion

Determining the price of materials according to the London Metal Exchange (LME) rates.

B) Item, Quantity, and Destination Port Agreement

Finalizing the items, quantities, and destination port for export with the buyer.

5. Container Arrangement with Shipping Line (for Buyer's Point of Destination)

Coordinating with a shipping line to secure containers for delivery to the buyer's specified destination.

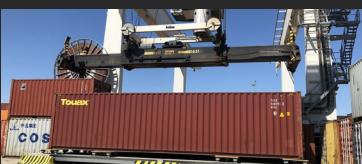

6. Collection of Empty Container

Retrieving empty containers from the shipping line to prepare for loading.

7. Loading of Scrap Material

Carefully loading the segregated scrap materials into the shipping containers.

8. Weighing the Loaded Container

Conducting the weighing process at two external weighbridges, followed by a final weighing at our yard. After verifying all measurements, the final weight is confirmed.

9. Sealing the Container

Securing the container with seals to prevent tampering during transport.

10. Transport to Terminal

Moving the sealed container to the shipping terminal for departure.

11. Documentation and Shipment Process:

A) Port Documentation and Shipment Tracking

Completing the necessary documentation for port clearance and tracking the shipment to its destination.

B) Issuing Invoice (USD) and Payment Collection

Issuing an invoice in USD to the buyer and managing the payment collection process.

OUR SERVICES

Scrap Recycling

Prime Time Metals offers comprehensive scrap recycling solutions, specializing in the environmentally friendly processing of a variety of materials including iron scrap, ocean clean, compressor, aluminium, brass, lead, steel, and copper.

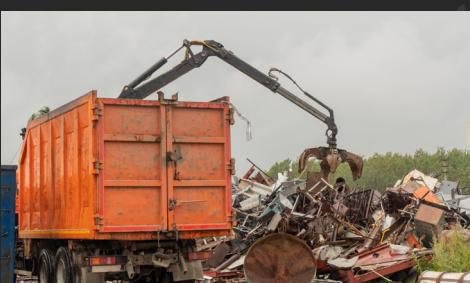

Scrap Buy & Sell

With Prime Time Metals, buying and selling scrap materials has never been easier. Our efficient and reliable services cater to businesses looking to offload surplus scrap or acquire materials for their manufacturing processes.

Processing & Equipment

Prime Time Metals leverages cutting-edge processing solutions and top-of-the line equipment to streamline the recycling process. Our state-of-the-art facilities are equipped to handle various scrap materials efficiently and effectively.

Scrap Transportation

Ensure the safe and timely delivery of your scrap materials with Prime Time Metals transportation services. Our fleet of specialized vehicles and experienced drivers are dedicated to transporting materials securely to their destination.
